Key Elements of the FXTM Partners Affiliate Program

The CPA per each trade will depend on the average (lifespan) deposits the affiliate gets from their sales. This will be defined by a Quality Meter which measures the quality of each referred client. The higher the Quality Score, the higher the CPA per trade and the less trades required to meet the maximum CPA.

Cookie life refers to the time which passes between the moment a click is made on the affiliate site and the last day we are willing to pay you a percentage of the sale made by the client who made that click. Our cookie life duration is 90 days.

Affiliate Tools

Banners & Links

Take your pick from a variety of image banners, flash banners and text links to place on your website, blog or social media channel.

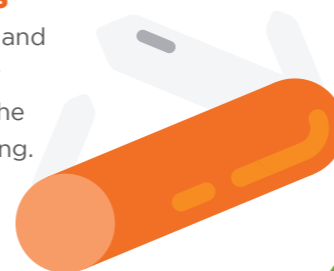

Social Posting

No website? No problem! Post your links to all your favorite social networks directly from your affiliate panel. It's a one-click action and it's hassle free! No more copy-pasting messy code.

Advanced Tools

Enhance your promotions and protect your affiliate links by using advanced tools such as the AffLinkProtector and SubIDTracking.

Forex Widgets

Use widgets such as our Video Player and Registration Form widgets to capture leads directly from your own website.
